

## **Interac® Online is being retired.**

As a valued member of the Credit Union, we wanted to reach out and let you know that the **Interac® Online feature is being retired as of July 26, 2023**. In the past, you may have used your debit card to make online payments using this feature.

Moving forward, we encourage you to explore other methods of online payment once it goes away:

1. Get a Debit Mastercard®: These cards have the same functionality as a standard debit card but can make online payments anywhere Debit Mastercard is accepted. All the funds come straight from your chequing or savings account. Reach out to us if you're interested in getting a card.
2. Apply for a credit card: Our partners at Collabria have a card to fit your life, which can be used to make online payments. It's also a great way to build healthy credit! To explore our suite of cards, [click here](#).
3. Utilize Google Pay, Apple Pay, PayPal or another comparable service: Did you know you can link your credit union account or your debit card using Google Pay, Apple Pay or PayPal?

**IMPORTANT:** You will continue to be able to send and receive Interac® e-Transfers. The Interac® e-Transfer service is NOT being retired and will continue to be available after July 26, 2023.

We understand the loss of *Interac®* Online may cause friction in your banking experience. As always, we're here to help any way we can. Don't hesitate to reach out if you have any questions or concerns.
